I'll make a clean indoor environment

N T Test of Neo Innovation

Air Max Clean Mat surely catches the dust, the hazardous substances and the germs coming from the outside to the indoor.

As the result of our continuous research and development and part of our business effort in the green industry, TESTONIC CO., Ltd. has successfully developed Air Max Clean Mat. This world is suffering from diseases caused by new viruses due to the global warming and abnormal temperatures, and the increasing yellow dust storm, due to desertification, is posing tremendous hindrance and threat to healthy life all over the world. Our Air Max can be installed near an entrance door or vehicle's door and prevent various germs, micro-dust, and harmful substances from entering as well as provide pleasant environment certainly. We promise to continuously put our best efforts into developing and improving our products.

Pleasant environmental indoor conditions! AIR MAX Clean Mat

Merits of AIR MAX Clean Mat

Simple Manual

Just walking on the mat prevents contaminated substances on dirt or fine dust from inflowing into indoors.

Easy Maintenance & Storage

It is easy to handle and the dirt and fine dust collected by the dust collector are easily processes through the drawer-type separator.

(It can be changed.)

Product Specification

AIR MAX Dust Collector

	A TYPE	290×370×580(mm)		
Size	A TYPE(GATE)	350×270×500(mm)		
	B TYPE	480×220×290(mm)		
	AC			
MOTOR	BLDC			
	DC			
Sensor Type	Pressure Sensor			
Sensor Type	Photo Sensor			
Duct Colleting Mathed	Dust Bag			
Dust Colleting Method	HEPA Filter			
Onevetion Control	Running time set up			
Operation Control	Dust Collector running			
Air Cleaning Funtion	Possible			

Strong Durability

AIR MAX is made of solid materials that are durable to external shocks and resistant to corrosions. It is thereby safe in regardless to kinds of shoes and can be useful even in raining or snowing days.

Features of AIR MAX Clean Mat

- Word's first product (Patent registered)
- Instatn Air sucking method
- No particular training necessary
- Blocking fine dust from shoes(snow and rain as well)
- Pure and Clean Work Environment
- Pleasant Indoor Air with Cost Savings
- Easy Process of the foreign substances collected by Dust Collecto
- Durable to External Shock

AIR MAX Clean Mat				
Standard Size	One door	700×600×20(mm) 500×1000×20(mm) 700×1000×20(mm)		
	Two doors	1000×1000×20(mm) 1400×1000×20(mm) 1000×2000×20(mm)		
Mat Type	For Person For trolley 1.5t / 3t			
Distance between balls	left and right up and down	25mm 30mm		
Ball Material	STS ball Nikel plated ball Acetal			
Mat Materials	STS304 HL STS304 Etching
